## LMPerioKit

Powered by STYLEITALIANO

LM-PerioKit by Style Italiano is a set of periodontal instruments chosen by Dr. Giano Ricci.

LM periodontal instruments are ultimate in metallurgy. The high wear resistance and hardness of the blade metal makes them efficient, long-lasting and comfortable. The ergonomic design with a silicone handle gives the instruments a non-slip and natural grip. Good tactile sensitivity and easy handling of the instruments guarantee the best clinical results.

## LMErgoSense handle

“Feels great in the hand”

Found to have the highest rated ergonomics in studies by the Finnish Institute of Occupational Health: design prevents unnecessary clenching of the hand and makes working pleasant.

“The **LM-PerioKit by Style Italiano** contains the essentials for the best possible therapy.

Instruments have been selected in the spirit of Style Italiano whose philosophy is to make treatment feasible, teachable, repeatable. Periodontal therapy too can follow this approach. It’s my feeling that, in the best interest of his patients, every practitioner should be able to properly execute non surgical therapy, crown lengthening procedures, free gingival grafts, simpler surgical root coverages.”
